👜 EXPERIENCE

Freelancing

2020 - present

- Worked closely with clients to understand project requirements, provided technical insights, and ensured alignment with business objectives.
- Designed and implemented responsive and user-friendly interfaces using React.js, Tailwind CSS and a variety of other extensions and packages.
- Demonstrated strong problem-solving skills, addressing technical challenges efficiently and proposing effective solutions.
- Maintained open and transparent communication with clients, providing regular updates on project progress and addressing feedback regularly.

📁 KEY PROJECTS

WIU App, University services

A mobile application for a private university in Syria that helped nearly 1200 students to get their lectures, marks, programs, calendars, university advertisements and notifications in an easy and reliable way.

- Tech used: Flutter

Z-Manager, Warehouse management system

Designed as a robust warehouse and billing management system, this desktop application aims to optimize the productivity of the product management process, implementing a more streamlined and professional approach.

- Tech used: React.js, Electron.js, TypeScript, Firebase.

Electra Space, Freelance services

A website for a German / Syrian company that connects freelancers to clients.

- Tech used: React.js

🧠 SOFT SKILLS

Flexibility

Adaptable and flexible React developer, ensuring the delivery of high-quality solutions in dynamic work environments.

Teamwork

Works well in teams, communicates effectively, and values diverse perspectives to promote collective success in collaborative environments.
